

3D AQUARIUM HEXAFLEXAGON

INSTRUCTIONS

1. Cut along outer lines
2. Crease dotted lines photo side to photo side, unfold after each crease
3. Crease diagonal lines to the back, unfold after each crease
4. Gently fold the long sides together, forming a tube
5. Glue, or tape, together where indicated (leave open the end tabs for now)
6. Once dry, add glue to end tabs and tuck into the open end of the tube
7. Enjoy!
