

# MAKE A HEXAFLEXAGON

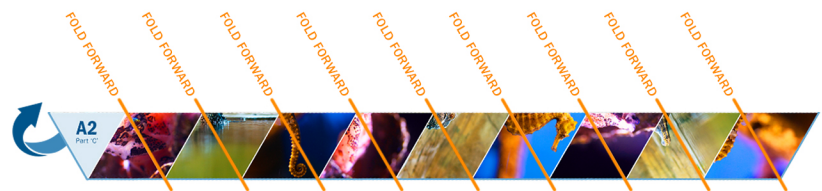

## STEP 1

Cut out the template. If using the large template, cut out and glue the pieces together. Then fold down the middle so the photos are facing out

## STEP 2

With 'A2' facing up, fold along the lines as marked in the diagram

## STEP 3

You should end up with a long parallelogram. Make sure it matches the diagram

## STEP 4

With the back facing you, fold along the line marked in the diagram. Folding side '1' behind side '2'

IT SHOULD LOOK LIKE THIS AFTER STEP 4

## STEP 5

Fold along the line marked in the diagram, folding side '2' over side '1'

IT SHOULD LOOK LIKE THIS AFTER STEP 5

## STEP 6

Bring the flap marked 'A2' to the front, then fold and glue 'A1' to 'A2'
