Loveland Living Planet Aquarium hits 4th highest attendance nationwide

The Loveland Living Planet Aquarium is pleased to announce we had the fourth highest attendance among all aquariums nationwide for the month of April 2014! Georgia Aquarium had the most visitors with 203,822 in April, followed closely by Monterey Bay with 197,000. The Shedd Aquarium was third with 184,279 and the Loveland Living Planet Aquarium had the fourth highest attendance with 145,342 visitors. The New England Aquarium and the National Aquarium in Baltimore both had about 130,000 guests for the month of April.

We know that the high attendance numbers are due much in part to how new our facility is and April being the first full month we have been open. We are so excited to have that many guests come through our doors already. On day 63, the Aquarium saw its 300,000 visitor!

“We knew this Aquarium would be a popular attraction when we opened,” said Loveland Living Planet Aquarium Founder and CEO Brent Andersen. “We are thrilled that so many people have come to enjoy the Aquarium. This facility has been 17 years in the making and I couldn’t be happier to have it open for all to experience.”

The Aquarium has also had more than 20,000 students visit through field trips since we’ve been open. We are able to accommodate many more students in our new 136,000 square foot facility than we ever could at our old location in Sandy. For more information on school groups and field trips, visit [this page](#).

The Loveland Living Planet Aquarium is the ninth largest Aquarium in the nation.
