## Guess "Who"?: Aquarium Welcomes New Baby Barn Owl

FOR IMMEDIATE RELEASE

**DRAPER, Utah** — We are thrilled to announce that a young female barn owl has recently joined the Aquarium animal family! At just nine weeks old, she is very curious and is beginning to spread her wings as she acclimates to her new home and our staff. She has been a big "hoot" to have around!

This new owl will eventually join our other birds of prey in our Mews, a back-of-house birds of prey center, so she may not always be visible to guests. However, she will make special appearances as an ambassador for her species, with her presentation schedule posted on our website and social media channels.

We're inviting the public to help us choose her name through a naming contest hosted on our social media channels. For more information, or to cast your vote, visit our website at <https://livingplanetaquarium.org/animal/barn-owl/>.

Guests will have the exciting opportunity to meet her up close during our upcoming special presentations held at the Aquarium beginning at 1:00 PM on the following dates: Sunday, June 22, Tuesday, June 24, and Thursday, June 26.

\*Please note: Animal appearances are not guaranteed. Our animal care team always prioritizes the comfort and well-being of our animals, and we never require participation if they are not willing or ready.

**About Loveland Living Planet Aquarium**

Loveland Living Planet Aquarium is a 501(c)(3) nonprofit organization with a mission to inspire people to explore, discover, and learn about Earth's diverse ecosystems. A world-class facility, the Aquarium provides learning opportunities for all levels of interest and age. Since opening in Draper in March 2014, the Aquarium has welcomed over 10 million guests. Additionally, the Aquarium offers student experiences by visiting every fourth-grade elementary class in the state annually. Loveland Living Planet Aquarium is accredited by the Association of Zoos and Aquariums (AZA).
